Harold Sweeny and Miss Ruth Brown, of Holland, Mich., were united in marriage at Grand Rapids, Mich., July 3rd; the newly weds are making their home in Grand Rapids, children will remain for a few weeks.

## SEES THE TRAIN HER GRANDFATHER RODE ON

Among the interested spectators at the station Tuesday Morning, when the DeWitt Clinton special passed through here, was Mrs. H. T. Brigham. Her grandfather, John Lucas, was one of the first men to ride on the old train. He lived at Madison, N. Y., and on his way to New York he heard of the Mohawk and Hudson Railroad, the original unit of the New York Central lines. He went to see the train and to ride on it. Mrs. Brigham says her grandfather often told her of this wonderful event and predicted that the time would soon come when great railway systems would cross the American continent. "I heard so much about this old train from my grandfather that I had to come to see it," said Mrs. Brigham. Mr. Lucas died in 1851 and the record of railroad construction shows that his judgment regarding the future of rail transportation was in no way at fault.

Probably 500 people were at the station to see the DeWitt Clinton special which was hauled by the celebrated locomotive "999", the holder of the world's speed record, having made 12.5 miles an hour on May 10, 1893.

## ATTENTION CITIZENS

Friday evening, in the Christian Church, the children of the Daily Vacation Bible School will put on an exhibit of their work done during the last five weeks which will be of interest to everyone interested in education or religion. Time is 7:30. The children will be put through a specimen day of devotion, after which specimens of the work done by the boys and girls will be on exhibition.

The "D. V. B. S." is here to stay. You will see to that when you know the facts. This year has been a distinct success. In spite of the fact that it was little known prior to its opening.

Yesterday, I entered the room as an observer. It was near the close of the devotional hour. My friend Dixon was in charge. Part of the time you could have heard a pin drop. All of the time the time the children were "on their toes." The next period would ordinarily have been their play period. Dixon asked them whether they would not prefer to go at once to their work. They voted unanimously for work instead of play. Now what do you know about that! People thought that the children could not be persuaded to work in vacation time!

Now for the figures. Total enrollment. 275. Expected enrollment 100. Average attendance for 5 weeks — 150. Teachers — 7. Principal — 1.

Cost — \$250. Compare this with Defiance. There the average attendance was about 200, as compared with our 150. The cost \$700 as compared with our \$250.

Assisting Dixon (Rev. A. M. Dixon, Baptist Church) were seven teachers: Laura Schad, Ruth Brown, Florence Dimke, Margetta Jordan, Esther Ayers, Louise Fink, Marjorie Dudley.

The Kindergarten, under the care of Ruth Brown, Florence Dimke and Marjorie Dudley has taken the younger children and given them high grade kindergarten work. In the higher grades the children have not only learned more bible in the five weeks than they could learn in the average Sunday School in the course of a year; in addition, they have learned to do many valuable things with their hands.

Remember — Christian Church 7:30 Friday evening.

Let's endorse this fine work. Very truly, Arthur E. Fish, Pastor of Congregational Church.

## DESTRUCTIVE FIRE

The barns and machinery sheds together with all their contents on the Phil Garman farm two miles North-east of Wauseon were totally destroyed by fire Tuesday afternoon. Mr. Garman was finishing the threshing and having filled his straw barn was blowing the balance of the straw into the covered yard; a little after four o'clock he passed around to the rear of the threshing machine to the covered yard and noticed a blaze in the straw, he at once got a pail of water from the tank near by and dashed upon the blaze at the same time calling for help, but the blaze spread rapidly and was almost at once beyond control, within ten minutes the barn was a mass of flames and the fire rapidly spread to the buildings to the north of the barn containing clover huller, corn shredder and all of Mr. Garman's farm machinery. All hay and grain from this season's harvest were contained in the barn. One hog was so badly burned that it was necessary to kill it. Mr. Garman carried only a limited amount of insurance, not enough to cover the cost of the buildings.

## NOTICE

I shall not be in my office to meet patients on August 4th, 5th and 6th. 17-1-e S. ANNA BEVIER, D. C.

GOOD REFERENCE

NEW AUTO  
SPOT LIGHT LAW

Users of spotlights after August 1st, must have them so adjusted that the light will be cast on the roadway not more than 50 feet ahead of the car and the rays shall be to the right of the center of the roadway. This is made mandatory by the new anti-glare law which goes into effect upon that date.

The Pence Law provides that all automobiles in Ohio after August 16th, shall be equipped with anti-glare lenses which have been approved by State Highway Commissioner Leon C. Herrick. Herrick expects to issue within the next ten days a list of approved devices and lenses that will meet the requirements of the Pence law.

In speaking of the anti-glare law Prof. F. C. Caldwell, of the state engineering experiment station, who heads the committee to make the tests for the state in connection with the anti-glare devices, states that the small expense attached to equipping an automobile with proper lights was small compared to the benefits.

He declares the headlights on an automobile to be a most important part of the car's equipment. "Many people will go to any expense to get the best of everything else in the way of automobile equipment and then buy cheap lighting equipment," said Prof. Caldwell. He declared more accidents occur at night through faulty headlights than any other cause. He states that the provisions of the Pence Law may be met by painting one half of the headlight but that procedure simply cut off one half of the supply of light, reducing the candle power one half and making the light very inefficient from a driver's standpoint. "Properly made lenses," said Prof. Caldwell, "defuse the light properly and project it downward upon the roadway, the proper distance ahead of the car. None of the light is lost as in the case of the painted headlight." The test is so small Caldwell declared, that no autoist should fail to install proper lenses.

CHAUTAUQUA TALENT WANTED

Musicians, singers, readers, entertainers, dramatic talent, lecturers, platform managers, juvenile workers, story tellers, tent crews and agents; the managers are contracting for their programs with the 1,000 talented and trained people who will conduct their chautauquas next season. Earn a good salary travel over the United States, Canada, Alaska, New Zealand, Australia, and England. A list of chautauqua managers and booking agents free to any person sending the name and address of the President, Secretary and Treasurer of local chautauqua to The Billboard, 35 S. Dearborn St., Chicago, Ill. 17-1-e

HOMES WANTED

## Lesson in OPTOMETRY

DON'T LET YOUR CHILD BE HANDICAPED

When you can prevent it. We suppose there are hundreds of thousands of children at this very minute pursuing their studies with eyes that are abnormal. That shouldn't be. Every child has a right to demand of its parents or teacher or somebody that its visual equipment to be as nearly as possible normal. Parents, give this subject the thought it deserves.

## FULTON COUNTY POMONA GRANGE

Met in regular session with Franklin township subordinate grange on July 23rd. Called to order by Worthy Master E. J. Krieger.

Among other things a motion was made and passed that Fulton County Pomona Grange go on record against the removal of the shade trees in the center field of the Fulton County Fair Grounds.

Since the removal of the trees made necessary to secure locations for new buildings, and the recent wind storm destroyed about twenty trees, we feel that to remove Nature's beautiful shade trees for financial gain would be an injustice.

After a short session we adjourned to the beautiful grove on the Verdon Borton farm, where a splendid dinner was served by the Franklin people and such fountain water, none better.

After dinner an interesting program was furnished by the Lecturer Brother J. F. Brigham of Bowling Green as speaker of the day, who talked to us on the conditions effecting the rural community and current events.

After which we adjourned to meet with Aetna Grange on Saturday August 27th, 1921.

Secretary Pro. Tom.
